Inherent Conditions: Occasionally, pets may develop problems from environmental and dietary changes. Signs may include vomiting, diarrhea, coughing, sneezing and self-trauma such as biting or scratching at their skin. We take great care so that these problems will not occur and we treat our guests promptly, if needed. However, please be aware and understand that these conditions can develop and the hospital is not financially responsible for these inherent conditions, if they do occur.

Abandonment: Please notify us if there are any change of plans in your pet's scheduled release date.
